Duplicate DMC / Degree Guidelines

****Akal University | Student information guide | Prepared 31 October 2026****

1. When to request a duplicate

Use this guide if an Akal University DMC/marksheet or degree certificate has been lost, stolen, destroyed or damaged. If the document is safe but contains an error, ask for a correction or reissue process instead; do not file a loss declaration for a document you still have. The University's public pages reviewed do not publish a current duplicate-document form, standard charge, affidavit format or processing time.

2. Contact the Examination Branch first

Before preparing an affidavit, newspaper notice, police report or payment, ask the Examination Branch for its current checklist. Requirements may differ for a DMC and a degree certificate and may depend on whether the document is lost or damaged. Ask:

- Which form applies to a duplicate DMC or degree?

- Is a police report/FIR, sworn affidavit, indemnity, newspaper notice or undertaking required? If so, what wording, stamp value, attestation and date are accepted?

- Must a damaged original be returned?

- What fee applies and which official payment category/method should be used?

- Are no-dues clearances, ID copies or original document inspection needed?

- How long does processing take, and what is the collection or dispatch method?

- Can an authorized representative collect the duplicate?

3. Prepare identifying details

Provide your full name as recorded, AUID/enrolment number, roll number, programme and department, semester/year or degree, examination session/year, certificate number if known, and current contact/address details. Specify exactly which document is missing and whether it was lost, stolen, destroyed or damaged. Attach clear copies of any surviving scan, photocopy, result portal record or related academic record if available.

Be consistent with the University's records. If your name or other details changed after study, ask which evidence is needed to link the old and current records.

4. Suggested supporting file (confirm the official checklist)

The following are common preparation items, not a confirmed Akal University requirement:

- Completed current duplicate application form.

- Government-issued photo ID and Akal University student ID/AUID details.

- Copy/scan of the lost document or result record, if available.

- Written explanation of the circumstances and date you noticed the loss/damage.

- Police report or affidavit only if specifically required by the University.

- Damaged original, if the Branch asks you to surrender it.

- Payment receipt for the confirmed fee.

- Authorization and ID documents if an approved representative will submit or collect the certificate.

Do not create or pay for a notarized document until the University has confirmed the exact language and format it accepts.

5. Submission, tracking and receipt

1. Obtain the official form and checklist from the Examination Branch.

2. Complete and sign the form; retain a copy and copies of every enclosure.

3. Pay the confirmed charge only by the University's current official method. Match the payment reference to your name and application if instructed.

4. Submit through the specified office/channel and obtain a dated acknowledgement or tracking number.

5. Follow up using that reference number after the stated processing period.

6. On receipt, inspect the name, programme, examination period, marks/result and certificate particulars. If incorrect, report it promptly in writing and retain the response.

Ask whether the issued document will be marked “duplicate” and whether a declaration is required before using it. Do not alter, reproduce seals, or represent a photocopy as an original.

6. Fees and payment

No standard duplicate DMC/degree fee or timeline was found in the public rules reviewed. The online fee-payment page lists categories including “Degree Marks Card Fee” and “Degree Fee,” but it does not show a confirmed duplicate-document amount in the information reviewed. Ask the University which category and amount apply; retain the official receipt.

7. Contact and references
